TECHNOLOGY & INNOVATION MANAGEMENT

This intensive and interactive three-day course will help managers to understand and use key frameworks, tools and techniques needed to fully exploit technological investments and opportunities. The course is suitable for those involved in all stages of the innovation process from R&D to customer support, including technologists, product managers, manufacturing managers, strategic planners and consultants.

By the end of the course you will have a working knowledge of how to:
- integrate technological considerations into business strategy and long-range planning processes
- manage new product development and introduction processes in the context of the innovation system
- use appropriate, process-based technology management approaches

Topics Include:
- Introduction to technology and innovation management: core frameworks.
- Technology and innovation management: evolutionary and change perspectives.
- Technology intelligence: approaches for keeping abreast of technology developments and trends.
- Managing innovation: key concepts and managing disruptive innovation.
- Open innovation: opportunities and challenges, and the role of intermediaries.
- Strategic technology management: practical approaches, including portfolios and roadmapping.
- Managing partnerships: challenges and approaches of asymmetric collaboration.
- IP management: intellectual property issues when identifying, valuing and exploiting technology.
- Project selection: An approach to evaluating innovation opportunities and technology-based projects using multi-factor scoring
- New product introduction game: team-based simulation to design, develop and market a product.
- Roadmapping activity: workshop approach for aligning product and technology strategy.

Who should attend
The course is primarily aimed at those who are progressing into roles where they are responsible for technology and innovation management in their organizations. However, it is also suitable for technologists who want to understand the associated management issues, and more senior managers who wish to refresh their knowledge and share experience with other participants from a range of sectors.

Views on the course
“Very engaging and grounded in reality. Lots of concise, incisive material and techniques”
Ricardo UK

“Highly professional and qualified teachers; good balance between small and large exercises and lectures”
Grundfos

Programme Leaders
The course will be presented by members of the Centre for Technology Management (CTM), one of several research centres within the University of Cambridge’s Institute for Manufacturing. The course is based on extensive research and industrial experience of the methods covered in the course.

Location
The course will be held at the Møller Centre, Cambridge, in purpose-built, modern conference buildings close to the centre of Cambridge.

Cost
The course fee is £2995.00 plus VAT, to include the course dinner on Wednesday 27 March and all daytime refreshments. An ‘earlybird’ fee of £2,700 plus VAT applies until 26 February 2019. Delegates may book ensuite accommodation at the Møller Centre for the nights of Monday 25, Tuesday 26 and Wednesday 27 March at an additional cost of £450 plus VAT.

IFM members and alumni are entitled to a 10% discount on the above course fees.
