ECOSYSTEM STRATEGY

INTENSIVE ONE DAY TRAINING COURSE

TUESDAY 5 FEBRUARY 2019

Institute for Manufacturing, Cambridge

Build your service network to grow faster

This course will help you:

- Understand what your business ecosystem is and why it is vital in service delivery
- Explore the different options and models in understanding your wider business ecosystem
- Understand how to build partnerships to share capability and capacity across multiple companies
- Understand how innovation can work through partnerships
- Learn how to identify weaknesses in your ecosystem and what approaches you can take to address them

ECOSYSTEM STRATEGY

When designing new services it is important to bring them to market quickly and iterate delivery. Often, it takes a lot of time to build capacity and capability to fulfil customers' needs. This course will show you how, through understanding your business' ecosystem and leveraging partnerships, you can deliver services quickly and effectively.

COURSE FORMAT

An interactive one day course combining presentations, group activities and discussions. Participants will develop the skills and knowledge to successfully leverage their company's ecosystem for growth.

The material presented has already been successfully applied in, amongst others, IBM, Caterpillar and BAE Systems.

WHAT YOU WILL LEARN

- What an ecosystem is with past and present examples to deepen your understanding
- How to model an ecosystem through mapping an ecosystem of your choice
- Where value is exchanged across partners in the ecosystem and how this can highlight areas for improvement in the delivery of services
- Understand the total value exchange, including the concept of indirect value, and how to model a direct value exchange
- Why innovation is important in ecosystems
- A technique that enables innovation between partners
- How to critically review your ecosystem, to identify areas of weakness and propose strategic configurations for improvement

WHO SHOULD ATTEND

- Managers and executives involved in strategy and business development of solutions and services
- Senior operations executives looking to inspire thought leadership in complex organisations
- Consultants who support major strategic change programmes
- Functional leaders and managers who are seeking to understand the wider value system of their firm

"Structured as a series of interactive sessions that interrelate and show a tangible output - very good indeed"

"its deployable (e.g. bite-size, dot-vote simplicity) application felt relevant and realistic to our business challenges right now"

- BAE Systems attendees
